

## NEW PART RELEASES DECEMBER 2020

### RCK400 Crankcase Ventilation (Catch Can) Filter Kit

Isuzu N series (4HK1 engine) from 2008-2018

In a truck industry first, Ryco has developed a vehicle specific crankcase ventilation filter assembly.

Designed for the Isuzu N Series with 4HK1 engine, our RCK400 kit includes RCC351 crankcase filter with RCC151F filter, vehicle specific mounting bracket and all hoses, clamps, hardware and installation instructions. Ryco Crankcase filters remove oil and impurities from the blow-by gases generated by the engine.

A Ryco Crankcase filtration system prevents crankcase gases from contaminating engine air intake components, reducing efficiency and leading to expensive maintenance. The high efficiency filter presents a low restriction to the engine PCV system and incorporates class leading oil holding capacity.

### Z1103 Primary Fuel Filter - Volvo B11R

Interchangeable with:

> OE Manufacturer.	OE No.
Volvo	21632237
Hengst	H486WK
Mann	WDK11001
Fleetguard	FF262

Primary Fuel filter for Volvo B11R Bus with D11 engine from 2012. Ryco also ranges HDA5996 Outer Air / HDA5997 Inner Air / Z878 Primary Oil / Z962 Secondary Oil x 2 / R2805P Urea / Z1059 Air Drier
