

## PRODUCT IMPROVEMENTS FEBRUARY 2021

### A1828, A1876, A1891 and A2040 Upgraded with wire mesh frame construction.

As part of Ryco's ongoing product development, we identified opportunities to improve against the OE design and efficiency gains of these popular air filters.

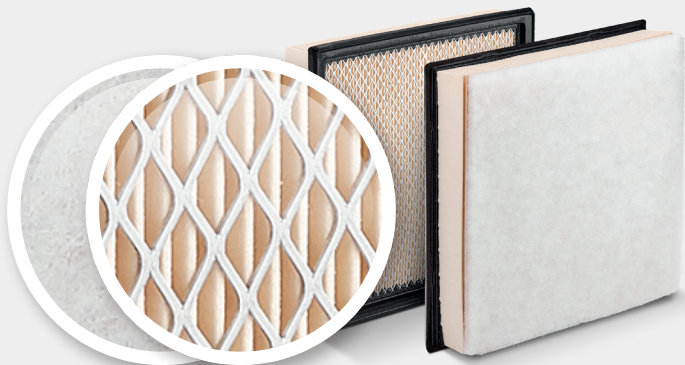

- ✓ Improves sealing by maintaining structural integrity, even under high load
- ✓ Improved rigidity makes fitting easier
- ✓ Less flex in the frame & filter ensures the air filter correctly seats in the air box

#### A1828

##### Ryco Air Filter

- ✓ With upgraded wire mesh reinforcement and pre-filter
- ✓ Better than OE in structural design

Fits: ISUZU D-Max TF (07/12 to 07/2020), MU-X

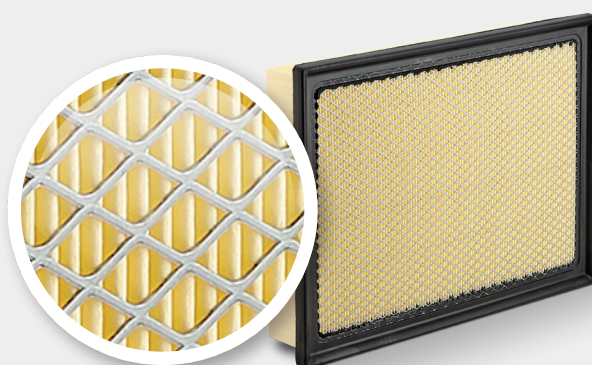

#### A1876

##### Ryco Air Filter

- ✓ With upgraded wire mesh reinforcement
- ✓ Better than OE in structural design

Fits: TOYOTA Hilux GUN and Fortuner GUN

#### A1891

##### Ryco Air Filter

- ✓ With upgraded wire mesh reinforcement
- ✓ Better than OE in structural design

Fits: MITSUBISHI Triton (MQ), Pajero Sport (QE)

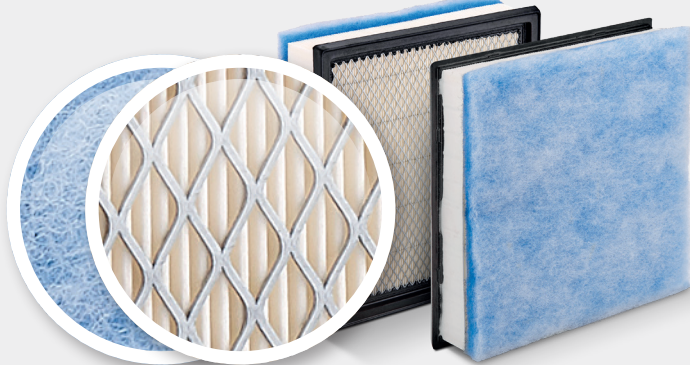

#### A2040

##### Ryco Air Filter

- ✓ With upgraded wire mesh reinforcement and pre filter
- ✓ Better than OE in performance and structural design

Fits: ISUZU D-MAX, MAZDA BT50 from 08/20 ..on
